

Crayon Frame/Chalkboard

Supplies

Inexpensive plain wood frame (one meant for decorating) with wood peg stand
Crayons
Chalkboard paint (optional)
Hot glue
Paint

Paint the frame a bright color (or buy one that way). Paint the center (where a picture would go) with chalkboard paint. Let dry. Put back inside frame. Start to glue the crayons around the edge of the frame. You may need to cut some in half. Let dry. Put stand in back. If you choose not to use chalkboard paint, then leave enough space for a photo, or glue an inspirational saying in the space
